My dear Uncle Henry.

Does too late Friday evening to write to you then. There was no delivery of letters on Sunday, so please excuse not hearing from me until now. I got on splendidly and certainly it was just the jolly-ride I ever had. Coming up rail to Newton. Does just in time to catch the trolley for Jersey City. Please have found a great account of my visit, and all have done been so interested. I shall never forget

yours and dear Harriet's kindness and the more welcome I receive abes at Cape May from Helen the more glad to at home and where I feel in both homes. I hope you will take care of yourself, I think sometimes you go more than you are able.

I stupidly forgot the spectacles you so kindly said I might have, and if not too much trouble to send them to me, I shall get glasses put in them here. as I do feel the want of such badly. Nancy delighted with the shell you sent her, wanted to scribble a line to thank you for it, but she is out.

Love with love I remain
Your affect niece
